

# Hey! Who's Splashing?

Sometimes orcas jump out of the water and into the air. Called breaching, some think orcas do it to warn off danger or show off to their friends. Or maybe it's just plain fun! Connect the dots to see Willy breach. Be sure to colour in his orca spots! Also find some of his ocean friends beneath the waves. Be sure to colour them in too!

## FREE WILLY

ESCAPE FROM PIRATE'S COVE

### On DVD June 16!
